THE UNIVERSITY

HISTORY

The history of Towson State University, the oldest and largest of Maryland's public colleges and universities, began in 1865 when the General Assembly of Maryland established a statewide public school system. The first state teacher training institution was the Maryland State Normal School, which in 1935 became the State Teachers College at Towson. Formally opened in Baltimore on January 15, 1866, the Normal School was for many years the only institution devoted exclusively to the preparation of teachers for the public schools of Maryland. The school occupied three different locations in the city of Baltimore before moving to its present suburban location in 1915.

In 1946 the arts and sciences program was introduced at Towson. Beginning as a two-year transfer program, it was extended to a four-year degree-granting program in 1960.

In 1963 the college was authorized by action of the legislature to expand its offerings in the arts and sciences while maintaining a strong program in teacher education, and to change its name from State Teachers College at Towson to Towson State College. University status was granted in 1976. Graduate education began in 1958. There are now twenty graduate degree and certificate programs.

PRIVACY RIGHTS OF PARENTS AND STUDENTS

Towson State University is in compliance with Section 513 (protection of the rights and privacy of parents and students) and Section 514 (protection of pupil rights) of Title V — Education Administration of the Education Amendments of 1974.

NON-DISCRIMINATION IN EDUCATION AND EMPLOYMENT

Towson State University is in compliance with Titles VI and VII of the Civil Rights Act of 1964, the Equal Pay Act of 1963, Title IX of the Education Amendments of 1972. Titles VII and VIII of the Public Health Service Act, Section 504 of the Rehabilitation Act of 1973, Section 303 of the Age Discrimination Act of 1975, Executive Order 11246/11375 and Article 64A (The Governor's Code of Fair Practices). In accordance with these laws, the university does not discriminate against any individual for reasons of race, color, religion, national origin, sex, age, political affiliation, marital status, or condition of handicap in the admission of students, educational programs and activities, hiring of faculty or staff, or any terms and conditions of employment. The university is also in compliance with federal regulations regarding prohibition of discrimination on the basis of veteran status. Information on these laws and copies of the Affirmative Action Plan of Towson State University are available from the Affirmative Action Officer.

THE CAMPUS AND FACILITIES

The university is situated on a campus of over 326 acres located one and a half miles beyond the northern border of the city of Baltimore. Within an eight-mile radius of the campus are all the cultural advantages of the city of Baltimore — The Peabody Conservatory of Music and Library, the Enoch Pratt Free Library, the Walters Art Gallery, the Baltimore Museum of Art, Meyerhoff Symphony Hall, the Lyric Theatre, Center Stage and many other cultural centers necessary for a well-rounded university experience.

Campus buildings and facilities give excellent support to the various university programs. The inside back cover of this catalog provides a pictorial guide of the campus, and appendix A describes the campus facilities.

Additionally, that officer monitors class attendance and evaluates academic progress to ensure that satisfactory progress of those receiving benefits is maintained and also supervises the employment of VA work-study students.

Students taking courses at another institution concurrently with courses at Towson State may be certified for both institutions by the TSU Registrar.

The normal time for processing an enrollment certification is six weeks. Certification is not automatic. The proper VA forms must be completed for each semester.

The OVA, located in the Administration Building, is open daily from 8:30 a.m. to 4:30 p.m. and may be visited without an appointment.

PARKING

The operation and possession of motor vehicles in the Towson community and the use of campus parking facilities are privileges extended to university faculty, staff, and students. These privileges carry with them the obligation to observe all regulations.

Post Office, Ground Floor	830-2260
Recreation Center, Ground Floor	830-2782
University Store, Ground Floor	830-2323
University Ticket Office, Ground Floor	830-2244

GRADUATE ASSISTANTSHIPS AND FINANCIAL AID

Students who wish to apply for a graduate assistantship or for other types of financial aid must be fully admitted to a degree program, before an award can be made. New students should allow sufficient time for admission credentials to be assembled and for the graduate school application to be completely processed.

ASSISTANTSHIPS

The Graduate School of Towson State University offers a limited number of graduate assistantships each year to qualified students recommended by the appropriate department. The stipends vary according to length of the period of employment and the number of hours worked. The full stipend is \$4,800. In addition to the stipend the assistant receives a waiver of tuition for regular courses. Waivers are prorated according to the terms of the assistantship. Graduate assistants are required to provide appropriate work each week during the semesters in which assistantships are in effect. Application forms for assistantships may be obtained from the graduate office. Detailed information may be obtained by writing to the dean of the Graduate School.

FINANCIAL AID PROGRAMS

Financial aid is available to graduate students who have been admitted as degree candidates, are making satisfactory academic progress, intend to register at least half time (six credits), and who fulfill the eligibility requirements of the program for which they apply.

Campus-based programs: Perkins/National Direct Student Loan and College Work Study.

The University receives a limited amount of money each year to fund students from these programs. The programs are "need based" and to receive consideration, a student must file the University's Supplemental Form A and a College Scholarship Service Financial Aid Form (FAF). The University's Financial Aid Application deadline date is March 15th for the following academic year. Students may apply as early as January 1st. (This form should be mailed by January 30th to allow sufficient time for processing.) Additional information is available in the Towson State University catalog under Financial Aid. More detailed information on Financial Aid programs and eligibility requirements is available on request from the Financial Aid Office.

The Perkins/National Direct Student Loan Program

If the student is eligible and funds are available, a student may borrow from this program at 5%. No interest is due as long as the student registers at least half time. When a student drops out, drops below half time or graduates, the grace period commences. Interest begins to accrue at the end of the grace period.

College Work Study (CWS)

If the student is eligible and funds are available, CWS allows a student to work on or off campus. All College Work Study jobs must be cleared through the Financial Aid Office. A CWS eligibility is the maximum amount that a student may earn and receive funding from a program. It is the responsibility of the student to find a CWS job and to monitor earnings so as to avoid exceeding CWS eligibility.

Guaranteed Student Loan Program (GSL)

This program is available in most states from commercial lenders such as a bank, credit union or savings and loan association. The Maryland program is called The Maryland Higher

Education Loan Program. For new borrowers the interest rate is 8%. Students who have already borrowed at 7% or 9% and whose loan has not been paid in full will continue borrowing at the same 7% or 9% interest rate. A graduate student may borrow up to a maximum of \$7,500 per year to an aggregate total of \$54,750 including any loans made at the undergraduate level. A GSL application and College Scholarship Service Financial Aid Form (FAF) must be completed and submitted to the Financial Aid Office.

Supplemental Student Loan (SLS) Program

This program is available to graduate students from some of the same commercial lenders that process Guaranteed Student Loans. A SLS application must be completed and submitted to the Financial Aid Office. A graduate student may borrow a maximum of \$4,000 per year at an aggregate total of \$20,000 including any loans made at the undergraduate level. The interest rate is currently 10.03% per year and begins to accrue on the day the loan is disbursed. Students should apply for SLS loans only after they have applied for GL and other forms of financial aid.

DEAN'S FELLOWSHIPS

Dean's fellowships are awarded on the basis of merit to new graduate students. The amounts of fellowships are variable. Generally, they are used toward payment of tuition and in some cases other items enumerated on the financial statement. Fellowship recipients must register for at least three semester hours per semester during the fellowship period. Students who hold a master's degree are ineligible.

Inquiries should be addressed to the Dean of the Graduate School.

GRADUATE MINORITY FELLOWSHIPS

Graduate minority fellowships are available to minority graduate students who are admitted to a Towson State University graduate degree program. The fellowships are in the amount of \$2,000, with \$500 to be awarded in each of four consecutive semesters. The fellowships are applied to tuition and other items on the student's University Financial Statement. Minority fellowship recipients must register for at least three credits of graduate courses each semester during the fellowship period.

Application materials and inquiries should be addressed to:

Dean of the Graduate School
Towson State University
Towson, Maryland 21204-7097
(301) 830-2078

STUDENT RESPONSIBILITY

It is the responsibility of the student to become knowledgeable of, and to observe, all university policies, regulations and procedures. In no case will a waiver of requirements or an exception be granted because a student pleads ignorance of policy or regulation or asserts that he/she was not informed of a specific requirement by an advisor or other university authority. The student should become especially familiar with: (1) the regulations in this catalog, (2) the section presenting requirements for the degree sought, and (3) the offerings and requirements of the student's major department.

The graduate school policy as stated in this catalog is in effect for all students admitted for the 1991-1992 academic year, and is that under which the student operates through the term of his or her study toward completion of degree requirements (subject to the disclaimer in the next paragraph).

While the provisions of this catalog will ordinarily be applied as stated, Towson State University reserves the right to change any provision listed in this catalog, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available from advisors and in the dean's office. It is especially important to note that it is the dean's office. It is especially important to note that it is the individual student's responsibility to keep apprised of current graduation requirements for his/her particular degree program.

THE GRADUATE SCHOOL

The Graduate School prepares qualified students for career advancement, leadership positions and further graduate study. The university serves the community, state and region by making graduate degree programs available to part-time students who can attend classes only in the evening as well as to full-time students. Numerous students also take advantage of graduate offerings without enrolling in degree programs.

The graduate faculty, which includes many widely recognized scholars and practitioners, is committed to excellence in teaching in a scholarly environment. The faculty, classroom, library, clinical, laboratory and studio assets of the graduate programs are supplemented by a community rich in cultural, artistic, social, technological and scientific resources.

Master's degrees are awarded in education, arts and sciences, and fine arts. The university is proud of the many alumni of the Graduate School who fulfill with distinction the requirements of responsible careers.

A DIVERSIFIED STUDENT BODY

The faculty and administration of the Graduate School of Towson State University recognize and value the richness that is present in a diversified student body. Towson State University students are racially and national graduate programs.

GRADUATE STUDIES COMMITTEE

The Graduate Studies Committee, a committee of the University Senate, determines policy for graduate programs. Matters of graduate curriculum and standards are the responsibility of the committee. The Graduate Studies Committee also hears appeals related to academic matters by graduate students. Student appeals to the committee should be directed to the Dean of the Graduate School.

The voting membership is comprised of six members of the faculty and two graduate students. The Dean of the Graduate School, two graduate coordinators and the Director of the Library are ex-officio members. The chairperson and secretary of the committee are elected from its membership.

GRADUATE SCHOOL ADMINISTRATION

The officers of the Graduate School are the Dean, Associate Dean, Director of Graduate Admissions and Records and Coordinator of Student Recruitment. It is their responsibility to administer the affairs of the Graduate School and to implement the policies of the Graduate Studies Committee.

GRADUATE SCHOOL OFFICE HOURS

The Graduate School office is open Monday through Thursday from 8:30 a.m. to 7:00 p.m. and Friday from 8:30 a.m. to 5:00 p.m. (except for scheduled holidays). During registration, the office is open in the evening according to the registration schedule. Students may arrange for appointments with the Graduate School staff at other hours. The Graduate School telephone number is 301-830-2500.

CORRESPONDENCE

Correspondence concerning graduate study should be addressed to:

Dean of the Graduate School
Towson State University
Towson, Maryland 21204-7097

MAINTENANCE AND DISPOSITION OF RECORDS

Students who do not register within one year of admission must submit new admission credentials and application data if they subsequently take courses.

All student records, including academic records from other institutions, are part of the official file, and are retained subject to stated policies. They cannot be returned or duplicated for any purpose. Students should obtain their own copies of official credentials for advisory purposes and other personal uses.

CONFIDENTIALITY OF RECORDS

In keeping with the Family Educational Rights and Privacy Act of 1974, Towson State University respects the confidential relationship between the university and its students by preserving, to the maximum extent possible, the privacy of all records relating to its students. Records are kept only on matters relevant to the academic admission process and to the student's progress toward a degree. The records will not be disclosed except upon student's written request or with his or her written consent, under legal compulsion, or in carefully circumscribed instances based on clearly-defined policies of Towson State University (see appendix B)

ACADEMIC INFORMATION

APPLICATION

Application to the Graduate School

Admission to the Graduate School of Towson State University is granted to all applicants whose academic and personal qualifications give promise of success in graduate study. The applicant must hold a baccalaureate degree from a regionally accredited college or university, or from a Maryland college or university that is approved by the Maryland State Board of Higher Education.

Students seeking admission to a graduate degree program, or to take courses for graduate credit, must apply for admission to graduate studies prior to first enrollment and have two official transcripts of all college work sent to the Graduate School. Transcripts must be sent directly from the institutions attended to the Graduate School of Towson State University. Some programs require such additional application materials as letters of recommendation, the Graduate Record Examination, general and/or subject tests, the Millers Analogies, and portfolios of work. Details of the required materials are included with descriptions of the programs elsewhere in this catalog.

Applicants for degree and certificate programs must have all application credentials in the Graduate School six weeks prior to the beginning of classes. Registration as a non degree graduate student in courses at the 500 and 600 level is possible during the admission review period. Courses taken as a non degree student may be included in the degree if approved later by the program coordinator.

International Students

Application for admission should be made at least six months prior to the date of anticipated enrollment. Admission credentials must include: (1) an application for admission; (2) two official or certified true copies of all grade reports, diplomas, and academic records attesting to the completion of undergraduate work; (3) supplemental information form for international students which includes a financial summary stating amounts and sources of support for the duration of study; and (4) verification of English competency.

English competency is certified by achievement of a minimum of 550 on the Test of English as a Foreign Language (TOEFL). Information about the TOEFL administration dates and registration procedure may be obtained from TOEFL, Educational Testing Service, Princeton, New Jersey 08540, USA. Towson State University is a test site for the TOEFL. Towson State University administers an institutional TOEFL in the fall and spring. Information can be obtained from the International Student Office (301) 830-2421.

ADMISSION

Full Admission

An applicant for admission to a degree program can meet full admission requirements by holding (1) a master's degree or doctorate from a regionally accredited college or university, or (2) a bachelor's degree with a grade point average of 3.00 (on a 4-point scale) and by meeting all additional admission requirements of the program. The grade average requirements may be satisfied by a 3.00 average for the most recent 60 credits on the applicant's baccalaureate record. Courses taken beyond the baccalaureate degree may be included in the undergraduate grade point average if they are at least upper division undergraduate work. Courses used for admission credentials cannot be applied toward a master's degree.

Conditional Admission

Conditional admission may be granted to applicants whose academic achievement does not meet the standards required for full admission. See individual program description for specific requirements. Students admitted to a degree program on a conditional basis must satisfy requirements for full admission by completing nine semester hours of graduate credit courses at the 600-700 levels at Towson State University. As specified by the coordinator at the time of admission, the courses may be taken from an approved list or may be the first three courses taken in the major area. The courses must be completed with a minimum 3.0 average.

The minimum undergraduate grade-point average for conditional admission may be waived for an applicant whose undergraduate degree was obtained at least ten years earlier, and who can document a minimum of five years of successful working experience in a field relevant to the applicant's program. The candidate's application to the Graduate School must be supported in writing by the program coordinator. Candidates must meet all other entrance requirements for the program.

Non-Degree Students

Students who do not wish to pursue a degree are permitted to register for courses through the 600 level. Those who do not meet standards required for admission to a program may take courses, through the 600 level, as special non-degree students. Non-degree students who wish to take courses above the 600 level should request a transcript evaluation. Such students must meet the same grade point average requirements as fully admitted graduate students. Requests should be directed to the Director of Graduate Admission and Records.

Admission Prior to Receiving Baccalaureate Degree

Admission may be granted to seniors in their final semester. Undergraduate work through the first semester of the senior year is evaluated. Admission standing is subject to cancellation or change if the admission credentials remain incomplete or do not meet the requirements for admission.

Graduate Work by Seniors at Towson State University

Seniors at Towson State University may register for a maximum of six credit hours in the Graduate School if they meet the following criteria: (1) the graduate courses must be in excess of the credits required for the bachelor's degree; (2) a written request to the Dean of the Graduate School from the student specifying the graduate courses is submitted in advance of registration; (3) a 3.00 or higher cumulative average. Payment for the courses is separate from that of undergraduate courses taken in the same semester and is at the graduate tuition rate. The courses may be transferred later to the student's graduate record.

ACADEMIC INTEGRITY

Students are expected to maintain a high standard of academic integrity. Inappropriate classroom conduct, cheating and plagiarism may result in disciplinary action by the Graduate Studies Committee.

Instructors are responsible for maintaining the academic integrity of courses and will initially handle problems of classroom conduct, cheating and plagiarism in a discussion with the student. Unauthorized assistance in preparing materials submitted as original work by the student constitutes a violation of academic integrity and results in action being taken. The instructor may lower the student's grade or give a failing grade for the course. If the instructor decides that further action is warranted, he or she will notify the student that a formal charge will be made to the Graduate Studies Committee. A written report of the incident will be filed with the committee.

The committee will review the facts of the case and make a decision regarding the status of the student in the Graduate School. The committee will either absolve the student of the violation or impose a penalty. The penalty may be, but is not limited to, the following: (1) agreement that the lowered course grade is sufficient disciplinary action; (2) mandatory suspension from taking courses for graduate credit for a designated period of time; or (3) dismissal from the Graduate School.

ACADEMIC STANDING

Good academic standing in a degree program requires a minimum 3.0 grade point average for all courses taken for graduate credit whether or not they are required for the degree. Good academic standing is necessary to transfer course work, to take the master's degree examination and to graduate.

Should the degree student's average fall below a 3.0, a letter of academic warning will be sent. If the grade point average is not raised to 3.0 within two years from the end of the semester when a student is notified, he/she will be withdrawn from the degree program.

The 3.0 average may be restored by repeating courses for which an "F" grade was earned or by taking additional courses. If courses beyond those required in the degree are taken to raise the GPA, a maximum of six semester hours approved by the graduate coordinator is allowed. All requirements for the program must be completed within the seven year period permitted by Graduate School policy.

ACADEMIC STANDARDS/APEALS

Matters of graduate academic standards are the responsibility of the Graduate Studies Committee. Appeals related to academic matters should be made to this committee by writing to the Dean of the Graduate School.

When there is a dispute about a grade between a student and faculty member, the student follows the established route of authority. He or she must try to settle the matter with the instructor. If unsuccessful, the matter is to be discussed first with the department chairperson, and then the school or college dean. If still not satisfied, the student should contact the Judicial Affairs Office for referral to the appropriate committee.

In all cases involving disciplinary action, or other charges, procedures of due process are followed. Additional information may be found under the headings of "Graduate Studies Committee" and "Academic Integrity."

ADVISING

At the time of admission to a graduate program, the student is assigned a faculty advisor by the department responsible for the student's program of study. Registration for a newly-admitted student begins with a visit to the academic advisor, who will assist the student with information about specific courses and degree requirements, and the development of a program of study. The student should consult with the advisor before registration each semester.

Program of Study

Each degree student must follow a program which is approved by the graduate coordinator, and which conforms to Graduate School Policy. Courses taken prior to planning the program of study can be included only if approved by the graduate coordinator. The advisor's approval is needed for any revisions. The program of study may include no more than nine credits at the 500 level.

REGISTRATION

Procedures and Regulations for Registration

College graduates who intend to register for graduate credit courses must have an application for admission on file in the Graduate School. All students should read the Graduate School "Academic Information" section of the current **Schedule of Classes**.

Enrollment Requirement after Application

Applicants for admission must indicate the date when they first plan to enroll. Records of students who do not enroll for courses in the stated semester will be held for one registration period beyond that semester. If enrollment in courses does not occur, or the student does not inform the Graduate School of another starting date, the applicant's records will be removed from the files and the student must apply again for future enrollment. One year is permitted

to initiate course work after admission to a degree program. If the applicant does not enroll in courses by that time the admission process must begin anew.

An applicant enrolled for courses is withdrawn from those courses if the transcript validating the baccalaureate degree is not received in the graduate office by the required date. No refund is granted, and the student's application is removed from Graduate School files. A new application and fee must be submitted if the student wishes to take courses for graduate credit at a later time.

Continuous Enrollment

Students are expected to register for courses on a regular basis. Should there be a lapse of two academic years during which courses are not taken for graduate credit, the student's records are removed from the graduate office files. If the student desires to take graduate courses after this action, he or she must initiate the application process as a new applicant.

Course Load

A student who registers for nine graduate semester hours is considered a full-time student. One who takes fewer hours is designated a part-time student. The maximum load for full-time students is 12 semester hours.

Auditing Courses

Students may audit courses that carry graduate credit with the written consent of the instructor. Any graduate student may audit a course through the 600 level. Courses at the 700 level may be audited only by fully admitted students. Audited courses appear on the university record as "AU" and may not be used to repeat a course for which credit has already been earned. Audited courses may not count as part of the credit hour load or be applied toward the master's degree. The regular tuition rate applies to audited courses.

Candidates for Degrees at Other Institutions

Students who are candidates for a graduate degree at another college or university may take graduate courses at Towson State University. At least two weeks before registration the student must present a letter from the graduate dean of the home institution indicating that he or she is in good standing and that credit earned at Towson State University is acceptable towards his or her degree.

Course Numbers

Each department has one or more three or four letter codes preceding the three digit course classification number. The three digit course number indicates the following with respect to level:

- 100-499 undergraduate courses
- 500-599 upper-division courses offered for graduate credit
- 600-699 graduate courses available to all post-baccalaureate students
- 700-799 graduate courses available only to fully admitted graduate students
- 800-899 graduate research and thesis courses

Upper Division Courses for Graduate Credit

Up to nine credits of upper division courses (500 level) may be earned toward a master's degree. Courses taken for undergraduate credit may not be repeated at the 500 level for graduate credit. Students should be sure that any course taken at the 500 level does not appear on a previous transcript with the same title.

Scheduling of Courses

Most graduate courses are offered after 4:00 P.M.

Grading System

A - 4 quality points

B - 3 quality points

C - 2 quality points

F - 0 quality points

FX - assigned when the student registers for a course but does not attend, or fails to withdraw officially from the course by the published last date to drop the course.

I (incomplete) - assigned at the end of the semester because of illness or other reason beyond control of the student. Unless the course is completed by the last day of the next regular semester, the grade becomes "F." It is the responsibility of the student to make arrangements to complete course requirements for removal of the "I."

IP (in progress) - assigned for the thesis continuum. When the thesis is completed the "IP" grades are changed to "S" (satisfactory) or "U" (unsatisfactory).

W (withdrawn) - assigned when the student withdraws from the course according to policy.

Repeating Courses

Courses for which a grade of "F" or "FX" has been awarded may be repeated once. Courses for which a grade of "C" or higher was awarded may not be repeated for graduate degree credit. The grade of "W" does not replace a previously awarded grade. When the course is repeated the student receives the credits for the course (counted once) and the higher of the two grades. Upon completion of the repeated course, a repeated course form must be submitted to the registrar by the student. Courses taken for undergraduate credit may not be repeated for graduate degree credit.

Withdrawal from a Course

Students dropping a course within the change of schedule period will have no grade recorded. If the course is dropped after the change of schedule period, but within the period to drop with the grade of "W," the "W" grade will be recorded on the permanent record. Students who do not officially drop a course during the established time periods will receive the grade earned in the course (A, B, C, F) as determined by the instructor.

Students with documented medical problems or verified circumstances beyond their control may petition the Graduate Studies Committee, in care of the Dean of the Graduate School, to drop a course after the established deadline and receive a grade of "W." Documentation must accompany the petition. If approved, grades of "W" will be recorded for all unearned grades (FX). Earned grades (A, B, C, F) will not be changed.

Transfer Credit

A maximum of six transfer credits may be allowed, but required courses in a program must be completed at Towson State University. Courses must have been taken at a regionally accredited college or university, must be applicable to a graduate degree at the offering institution, and cannot have been utilized as part of an earned degree. Transfer courses must be completed with a grade of "B" or higher, and within the span of seven years allowed for completion of the degree requirements. The seven year limitation cannot be extended for transfer credits. Courses such as workshops, independent study, travel and study, directed reading, inservice courses, and other special format courses are not acceptable for transfer credit.

Students request permission to take courses at another institution after admission to Towson State University by submitting a written request (Action Request form or letter) to the Dean of the Graduate School prior to taking the course. The course must be approved for the student's program and not be offered by Towson State University during the period of the student's attendance. Written approval must be received by the student from the Office of the Dean before the student registers for the requested course(s). Transfer credits are not used in computing academic averages. The courses appear on the Towson State University transcript with the titles and credits earned, but without grades earned.

Special Format Courses

In all degree programs, a limit of 12 semester hours is placed on workshops, independent study, travel and study, directed reading, or other special format courses.

DEGREE REQUIREMENTS

ELIGIBILITY FOR GRADUATION

Students must complete all program prerequisites, as well as all required and elective master's degree courses with a minimum average of 3.0 in graduate work taken at Towson State University. A minimum average of 3.0 in all courses included on the program of study must be earned. Students must also pass the master's degree written examination, and, if required by the particular program, additional oral and written examinations. All degree requirements including resolution of incomplete grades and the submission of the final copy of the thesis (which must be delivered to the Graduate School), if the thesis option is selected, must be completed by the last day of classes of the semester in which the student is applying for graduation. The application for graduation must be filed by the published date, and the graduation fee paid.

THE MASTER'S DEGREE WRITTEN EXAMINATION

Students must pass a written examination administered by the department. The examination, independent of any course, requires the review and synthesis of appropriate program materials and demonstration of satisfactory writing competence. The examination may be repeated once. The application deadline for the examination is stated in the calendar in this catalog. To be eligible to take the examination the student must have a 3.00 or higher grade point average in all courses taken for graduate credit. Should the student not take the examination or have to repeat it, the application must be submitted again during the semester in which the examination is to be repeated.

DEPARTMENTAL EXAMINATIONS

Some programs require oral and/or written examinations in addition to the master's degree written examination.

THESIS PROCEDURE

Students intending to write a thesis should obtain the manual **Guidelines for Preparing the Master's Degree Thesis** from their program coordinator or from the Graduate School office.

TIME LIMITATION FOR COMPLETION OF DEGREE REQUIREMENTS

All requirements for the master's degree must be completed within a seven year period.

REENTRY TO A DEGREE PROGRAM AFTER LAPSE OF TIME LIMITATION

For readmission to a degree program after the seven year period for completion of the degree has elapsed, the student's records are evaluated and admission is granted under current Graduate School policy. Courses taken while previously admitted are not applicable to the degree. They are not repeated, but are replaced with additional courses approved by the advisor.

CHANGE FROM ONE DEGREE PROGRAM TO A DIFFERENT PROGRAM

Students may request a change of program at any time, but may not be enrolled in two master's degree programs concurrently. The request can be either in the form of a letter to the Dean of the Graduate School, or an action request form obtained from the Graduate School office. The standing granted in the original program does not guarantee similar standing in the new program, which is entered subject to policies in effect at the time of the change.

Courses taken prior to the transfer may be utilized as part of the degree program if applicable. All courses, including those taken in the earlier program and used in the new program, are calculated in the GPA considered for graduation. The seven year period permitted for completion of program requirements begins with the earliest course taken in the former program that is used in the new program.

It is possible to return to the first program if the return is requested in writing within 60 days of the original request to change programs. The student may return to the original program after the 60 day period subject to admission policies in effect at the time of the application to return.

APPLICATION FOR GRADUATION

The request for graduation review for a degree, music certificate or the certificate of advanced studies in school psychology is submitted to the graduate office with the graduation fee. The deadline for submission of the application is published in the academic calendar on page 1 of this catalog and in the schedule booklet. If the application is submitted late, graduation is postponed until the next graduation date.

All graduation requirements including resolution of incomplete grades and acceptance of the completed thesis (if a thesis is undertaken) must be completed by the last day of the semester in which the student is applying for graduation.

If the student does not complete requirements for graduation, the application must be resubmitted during the semester in which graduation is desired. The graduation fee is required only with the first submission of the application.

Information concerning registration may be obtained in the graduate office. Students who have never applied for admission and are registering for the first time may take 500-600 level courses for graduate credit by completing the application for admission to graduate studies. PSYCHOLOGY

Degree: Master of Arts

Program Coordinators:

Clinical Psychology — Barry A. Bass

Counseling — Anthony DiCesare

Experimental Psychology — Michael Figler

School Psychology — Mary Brizzolara

The program offers the student the opportunity of in-depth specialization in one of four psychological areas. The areas are clinical psychology, counseling, experimental psychology and school psychology. Each is described below in detail with reference to objectives and requirements.

The psychology department faculty recognizes a special responsibility to the profession of psychology to ensure that all graduates of our program demonstrate attitudes and behavior consistent with the standards of the profession. In keeping with this responsibility, students may be disciplined (including dismissal) for exhibiting behavior deemed to be inconsistent with the standards of the profession. The faculty of the concentration involved may recommend to the program coordinator disciplinary action for such behavior as dishonesty, unethical conduct, deficient professional/clinical skills, or other behaviors construed by the faculty as counterproductive to the field of psychology. Recommendation for disciplinary action will be made by a faculty committee consisting of the program coordinator and the graduate faculty teaching within that concentration. Before disciplinary action is carried out, the decision for such disciplinary action will be reviewed by the Professional Standards Committee of the psychology department. The student has the right to due process.

CLINICAL PSYCHOLOGY

The area of clinical psychology aims primarily at training M.A.-level psychologists for employment in state and other nonprofit organizations. SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY

Degree: Master of Science

Program Coordinator: M. Barbara Laufer

The speech-language pathology and audiology program is accredited by the Educational Standards Board (ESB) of the American Speech-Language-Hearing Association and the Maryland State Department of Education. The program provides the student with (1) study of normal communication processes; (2) an in-depth investigation of communication disorders; (3) development of therapeutic goals, procedures, and materials; and (4) extensive clinical experience in on- and off-campus settings. The program is designed to enable pre-professionals in the field, i.e., those with a bachelor's degree or the equivalent in speech-language pathology and audiology, to meet the academic and clinical practicum requirements of national and state accrediting, certifying, and licensing bodies.

Students elect to specialize in either speech-language pathology or audiology. Applicants indicate their area of emphasis on the application form.

The degree will prepare the individual for national/state certification and state licensure for employment in public school, clinical or hospital settings, or private practice and to pursue advanced degrees. All clinical practicum clock hour requirements of the American Speech-Language-Hearing Association (ASHA) and the Department of Communication Sciences and Disorders must be completed before the M.S. degree is awarded.

The Communication Sciences & Disorders Department faculty recognizes a special responsibility to the profession to ensure that graduates of masters degree programs demonstrate attitudes and behaviors consistent with the standards of the profession. In keeping with this responsibility, faculty members may recommend to the graduate coordinator that a student should be disciplined (including dismissal) for exhibiting behavior deemed to be inconsistent

with the standards of the profession. Non-professional behaviors include dishonesty, unethical conduct, deficient professional/clinical skills, or other behaviors construed by the faculty as counterproductive to the field. Recommendations for disciplinary action will be made by a faculty committee consisting of the program coordinator and the appropriate graduate faculty. The recommendation for disciplinary action will be reviewed and acted upon by the faculty of the department and forwarded to the dean of the Graduate School. The student has the right to due process.

Appendix B

THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act of 1974 is a Federal Law which provides that the institution must maintain the confidentiality of student education records. This law states (a) that a written institutional policy must be established and (b) that a statement of adopted procedures covering the privacy rights of students be made available. The University has taken the appropriate steps to comply with this law.

Towson State University accords all the rights under the law to students who have reached the age of majority. Information may be released to parents who have established the students' dependency as defined by the Internal Revenue Code of 1954, Section 152. The Judicial Affairs office will review the parent's claim of dependency and notify the student of the claim prior to release of any academic information. Except as permitted under the act, no one outside the institution shall have access to any information from the students' education records without the written consent of students. Those people permitted access under the Act include personnel within the institution, officials of other institutions in which students seek to enroll, persons or organizations providing financial aid, accrediting agencies, persons in compliance with a judicial order and persons in an emergency acting in order to protect the health or safety of others.

Within the Towson State University community, only those individuals acting in the students' educational interest are allowed access to student education records. This includes personnel in the offices of the Registrar, Comptroller, Financial Aid, and other academic personnel within the limitations of their need to know. The Registrar may grant access to educational records for other legitimate reasons permitted under the Act.

The University may provide Directory Information in accordance with the provisions of the Act without the written consent of the student. Directory information includes: student name, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, the most recent previous educational institution attended by the student, participation in officially recognized activities and sports, and the weight and height of members of athletic teams. The Registrar's Office will release Directory Information at its discretion and may release Directory Information over the telephone or in writing. Students may withhold Directory Information by notifying the registrar in writing within two weeks after the first day of class.

A request for non-disclosure will be honored for only one academic year; therefore, authorization to withhold Directory Information must be filed annually with the Registrar.

The law provides students with the right to inspect and review information contained in their education records. The Registrar at Towson State University has been designated to coordinate the inspection and review of student education records. These records include admissions, personal, academic and financial files. Students wishing to review their education records must make written requests to the Registrar. Records covered by the Act will be made available within thirty days of the request. Students may have copies made of their records with certain exceptions (e.g., a copy of the original or source document which exists elsewhere) or when the student has an outstanding financial obligation to the University. These copies would be made at the students' expense. Education records do not necessarily include records of instructional, administrative, and educational personnel which are the sole possession of the maker. Health records will not be released to the students, but may be reviewed by physicians of the students' choosing.

As stated in the Act, students may not inspect and review the following: financial information submitted by their parents, confidential letters and recommendations associated with admissions, employment or job placement or honors to which they have waived their rights of inspection and review. Educational records containing information about more than one student are restricted and the institution will permit access only to that part of the record which pertains to the student. The institution will not permit students to inspect and review confidential letters and recommendations placed in their files prior to January 1, 1975.

The University has established an appeal mechanism in accordance with the Act. Students who believe that their education records contain information that is inaccurate or misleading, or unlawful may discuss their problems informally with the Registrar. The Registrar may agree to the request and the appropriate records will be amended. If not, the students will be notified that the records will not be amended; and they will be informed by the Registrar of their right to a formal hearing. Requests for formal hearings must be made in writing to the Vice President for Academic Affairs. The Vice President will inform students of the date, place, and time of the hearing. Students may present evidence and may be assisted or represented at the hearings by counsel. The hearing panels which will adjudicate such challenges will be comprised of the Vice President for Academic Affairs, the Vice President for Student Affairs, the Graduate Dean, and the Academic Dean of the student's college. Decisions of the hearing panels will be final. The findings will be based solely on the evidence presented at the hearing, and will consist of written statements summarizing the evidence and stating the reasons for the decisions, and will be delivered to all parties concerned. The education records will be corrected or amended in accordance with the decisions of the hearing panels. Students dissatisfied with the outcome of their hearing may prepare a written statement which will be placed in the education records and maintained as part of the students' records.

Those students who believe that the adjudications of the challenges were unfair, or not in keeping with the provisions of the act may request that the hearing be reviewed by the President of the University. In addition, students who believe that their rights have been abridged, may file complaints, with The Family Educational Rights and Privacy Act Office (FERPA), Department of Health, Education and Welfare, Washington, D.C. 20201, concerning the alleged failures of Towson State University to comply with the Act. Revisions and clarifications will be published as experience with the law and institution's policy warrants.

Appendix C

I. RESIDENCY

It is the policy of the Board of Regents of the University of Maryland System to recognize the categories of in-state and out-of-state students for purposes of admission, tuition, and charge differentials at those institutions where such differentiation has been established. The student is responsible for providing the information necessary to establish eligibility for in-state status.

- A. Students who are financially independent or financially dependent, as hereinafter defined, shall have their residency classification determined on the basis of permanent residency. For purposes of this policy, a permanent residence is a person's permanent place of abode as determined by the following criteria. Such students will be assigned in-state status for admission, tuition, and charge differential purposes only if the student (if financially independent) or the student's parent, guardian, or spouse (in the case of a financially dependent student):
 1. Owns or rents and occupies living quarters in Maryland. There must exist a genuine deed or lease in the individual's name reflecting payments/rents and terms typical of those in the community at the time executed. Persons not having such a lease may submit an affidavit reflecting payments/rents and terms as well as the name and address of the person to whom payments are made which may be considered as meeting this condition. As an alternative to ownership or rental of living quarters in Maryland, a student may share living quarters in Maryland which are owned or rented and occupied by a parent, legal guardian, or spouse;
 2. Maintains within Maryland substantially all personal property;
 3. Pays Maryland income tax on all earned taxable income including all taxable income earned outside of the State;
 4. Registers all owned motor vehicles in Maryland in accordance with Maryland law;
 5. Possesses a valid Maryland driver's license, if licensed, in accordance with Maryland law;
 6. Is registered in Maryland, if registered to vote;
 7. Receives no public assistance from a state other than the State of Maryland or from a city, county, or municipal agency other than one in Maryland, and;
 8. Has a legal ability under federal and Maryland law to reside permanently without interruption in Maryland.
- B. In addition to meeting all of the criteria set forth in the preceding section, to qualify for in-state status on the basis of permanent residence, a student or, if the student is financially dependent, the parent, legal guardian, or spouse, must have resided in Maryland for at least twelve (12) consecutive months immediately prior to and including the last date available for late registration for the forthcoming semester or session and must have continuously resided in Maryland during that period.
- C. If a student is financially dependent as hereinafter defined, the permanent residence of the parent, guardian, or spouse on whom he/she is dependent shall determine in-state status. If a student is financially independent, the permanent residence of the student shall determine in-state status.
- D. In-state status based on permanent residence is lost at any time a financially independent student establishes a permanent residence outside the State of Maryland. If the parent, guardian, or spouse through whom a financially dependent student has attained in-state status establishes permanent residence outside the State of Maryland, the in-state status is lost. In each instance, the student will then be assessed out-of-state tuition and charge beginning the next semester or session.

- E. In addition, the following categories of students shall have in-state status:
1. A full-time or part-time (at least 50% percent time) permanent employee of the University of Maryland System;
 2. The spouse or dependent child of a full-time or part-time (at least 50 percent time) permanent employee of the University of Maryland System;
 3. A full-time active member of the Armed Forces of the United States whose home of residency is Maryland or one who resides or is stationed in Maryland, or the spouse of a financially dependent child of such a person; and
 4. A graduate assistant.
- F. Students not entitled to in-state status under the preceding paragraphs shall be assigned out-of-state status for admission, tuition, and charge-differential purposes.

II. PROCEDURES

- A. The date on which conditions for in-state classification must be met is the last published date to register for the forthcoming semester or session. In those instances where an entering class size is established and where an application deadline is stated, institutions may require that conditions for in-state classification must be satisfied as the announced closing application date.
- B. A change in status must be requested in writing by a student prior to the last published date of registration in order to be effective for that semester or session. A student applying for a change to in-state status must furnish appropriate documentation as required by the institution.
- C. The student shall notify the institution in writing within fifteen (15) days of any change or circumstances which may alter in-state status.
- D. In the event incomplete, false, or misleading information is presented, the institution may, at its discretion, revoke an assignment of in-state status in addition to other disciplinary actions provided for by the institution's policy.
- E. Each institution of the University of Maryland System shall develop and publish additional procedures to implement this policy. Procedures shall provide that on request the President or designee has the authority to waive any residency requirement as set forth in 1A and 1B, if it is determined that the student is indeed a permanent resident and application of the criteria creates an unjust result. Such procedures must provide for appeal to the President or designee of any residency determination using a systemwide petition form. These procedures shall be filed with the office of the Chancellor.

III. DEFINITIONS

- A. **Financially Dependent:** For purposes of this policy, a financially dependent student is one who is claimed as a dependent for tax purposes, or who receives more than one-half of his or her support from a parent, legal guardian, or spouse during the twelve (12) month period immediately prior to the last published date for registration for the semester or session. If a student receives more than one-half of his or her support in the aggregate from a parent and/or legal guardian and/or spouse, the student shall be considered financially dependent on the person providing the greater amount of support.
- B. **Financially Independent:** A financially independent student is one who (1) declares himself or herself to be financially independent as defined herein; (2) does not appear as a dependent on the Federal or State income tax return of any other person; (3) receives less than one-half of his or her support from any other person or persons; and (4) demonstrates that he or she provides through self-support one-half or more of his or her total expenses.

- C. **Parent:** A parent may be a natural parent, or, if established by a court order recognized under the law of the State of Maryland, and adoptive parent.
- D. **Guardian:** A guardian is a person so appointed by a court order recognized under the law of the state of Maryland.
- E. **Spouse:** A spouse is a partner in a legally contracted marriage.
- F. **Support:** (1) Except as set forth in (2) below, support shall mean financial or material support, including gifts, services, and trusts, including income or benefits derived from one's family. (2) Support shall not include grants, stipends, awards, and benefits (including Federal and State student aid, grants, and loans) received for the purpose of education or by virtue of an individual's status or prospective status as a student. Such resource shall not be considered in calculating a student's financial dependence or independence.
